Company Overview ■ ■ ■ ■ ■

Zelya Energy is an independent European consulting firm, specialized in the energy sectors, whose mission is to **help industrial and financial players** create and maintain a **competitive advantage**. Our company relies on **high-experienced consultants in regulatory, technical and financial issues**, in strategy and management, specialized in the gas, power and renewable energy sectors.

More precisely, our team constantly reviews the gas and power market trends and regulations, in order to provide our clients with a **high level of expertise and a solid and detailed know-how of these sectors**. This is the foundation from which we can determine with them the best growth or hedging strategies and identify targets or opportunities to boost their business.

We've chosen to follow them in the complex and rapidly expanding energy sectors providing concrete support, complete expertise and specific solutions.

In this context, how to make the best decisions, which will minimize your costs, hedge and optimize your energy supply position?

Price Forecasts, Energy Purchase and Hedging Strategies ■ ■ ■ ■ ■

We offer our regulatory, engineering and financial know-how in:

- Commercial and technical issues relative to the delivery and sale of electricity and gas in Europe;
- Current regulatory and legal frameworks: access rules, balancing penalties, transmission, distribution or storage tariffs, rules and opportunities in switching of supplier;
- Gas and electricity market price estimations: economic and stochastic models, risk quantification and price sensitivity analyses.

Our knowledge of the wholesale markets will enable you to anticipate price changes, optimize your strategy mix and supply operations by providing solutions that fit to your specific needs:

- Set-up of hedging strategies for electricity and gas price changes: security of supply, minimisation of costs, customised services, contract administration simplicity
- Pre-selection and introduction to competitive energy suppliers
- Tender and negotiation of gas and electricity contracts
- Recommendations and assistance relative to the implementation of internal process improvements
- Invoice monitoring and control, ...
